

Ashish Manohar

Stanford University
Postdoctoral Scholar
Cardiovascular Medicine

ashman@stanford.edu
ashishmanohar.com

RESEARCH INTERESTS

Medical imaging	4D computed tomography	Cardiac mechanics
Image analysis	Cardiovascular imaging	Risk prediction modeling

EDUCATION

Doctor of Philosophy, Engineering Sciences 2017-2022
Mechanical Engineering, UC San Diego
Thesis: Spatio-temporal resolution of regional cardiac function assessment with four-dimensional computed tomography
Advisor: Dr. Elliot R. McVeigh

Master of Science, Engineering Sciences 2015-2017
Mechanical Engineering, UC San Diego
Thesis: Estimation of regional left ventricular function based on texture analysis of computed tomography images
Advisor: Dr. Juan Carlos del Alamo

Bachelor of Engineering, Mechanical Engineering 2011-2015
R.V. College of Engineering, Bangalore, India

RESEARCH EXPERIENCE

Center for Academic Medicine, Stanford University 2022-present
Postdoctoral Scholar

- Integrative structural and functional image analysis for enhanced risk stratification of cardiomyopathies

Cardiovascular Imaging Lab, UC San Diego 2017-2022
PhD Candidate

- Spatio-temporal resolution of 4DCT for regional cardiac function assessment
- Modeling cardiac mechanics
- 4DCT for guiding cardiac resynchronization therapy

del Alamo Research Group, UC San Diego 2015-2017
Graduate Student Researcher

- Texture analysis of cardiac muscle walls
- Regional values of fractal dimension as surrogate markers of left ventricular function

Micro Air Vehicle Unit, National Aerospace Laboratories 2014-2015
Research Intern

- Design and fabrication of flapping wing micro air vehicles
- Asymmetric flapping for differential thrust generation

FELLOWSHIPS & AWARDS

- **Postdoctoral Fellowship**, American Heart Association 2024
- **Predoctoral Fellowship**, American Heart Association 2020
- **Siemens Young Scientist Award**, SPIE Medical Imaging 2019

REVIEWER ACTIVITIES

- Medical Physics
- J of Cardiovascular Computed Tomography
- PLOS One
- J of Clinical Medicine
- Intl. J of Imaging Systems and Technology
- European Radiology
- Eur Heart J Cardiovascular Imaging
- J of Medical Imaging
- J of Personalized Medicine
- Stanford CVI Summer Research Program Application Review Committee

MENTORING, OUTREACH & LEADERSHIP

- **Stanford Cardiovascular Institute Early Career Committee,** 2023-present
Member of committee dedicated to promoting excellence in cardiovascular research through collaboration, mentorship, and outreach
- **Stanford Science Small Groups,** 2024-present
Mentor to a group of 5 students from local community colleges providing socio-emotional and instructional mentorship.
- **Stanford Institutes of Medicine Summer Research Program,** 2023-present
Mentor to two high school students promoting interest in and understanding of scientific research
- **Stanford Cardiovascular Institute Early Career Symposium,** 2023
Planning and organization committee member
- **UCSD Mechanical & Aerospace Engineering Mentoring Program,** 2021-2022
Mentor to two mechanical and aerospace engineering undergraduate students
- **Jacobs School of Engineering Undergraduate Mentoring Program,** 2020-2021
Mentor to engineering students providing socio-emotional support as they navigate their undergraduate journey
- **UCSD International Graduate Student Mentoring Program,** 2019-2020
Mentor for incoming international graduate students, providing support and resources to aid in their transition
- **UCSD Mechbio Symposium,** 2016
Lead Student Organizer

TEACHING EXPERIENCE

- Spring 2020: Teaching Assistant, Imaging cardiovascular disease (BENG 280C)
Received 100% positive student evaluations
- Spring 2019: Teaching Assistant, Imaging cardiovascular disease (BENG 280C)
Received 100% positive student evaluations
- Fall 2018: Teaching Assistant, Biomedical imaging (BENG 280A)
Received 100% positive student evaluations
- Spring 2018: Teaching Assistant, Advanced cardiac imaging (BENG 207)
Student evaluations not recorded
- Winter 2018: Teaching Assistant, Fluid mechanics (MAE 101B)
Received 100% positive student evaluations
- Fall 2017: Teaching Assistant, Aerodynamics (MAE 104)
Received 100% positive student evaluations
- Winter 2017: Teaching Assistant, Fluid mechanics (MAE 101A)
Received 100% positive student evaluations
- Summer 2016: Instructor, Introduction to fluid mechanics (UCSD Academic Connections)
Designed course curriculum and taught a class of 15 students between the 9-12 grades
- Winter 2016: Teaching Assistant, Fluid mechanics (CENG 101A)
Received 80% positive student evaluations
